Three glasses a day smooths wrinkles away!

PORCELAIN SKIN FROM WITHIN™

tōki®
Porcelain skin comes from within

For generations, Japanese women have been known for the splendor of their skin. Clear, smooth, and radiantly healthful, it’s a look the Japanese call “Toki” (“porcelain-like skin”).

How do Japanese women achieve this look? For many of them, the secret is a lemon citrus flavored dietary supplement, called Toki®. Toki is a powder that you mix with water and drink three times a day to help nourish, replenish and rejuvenate skin from deep within, where wrinkles and discolorations first begin.

The problem: collagen depletion

Collagen is a protein that gives firmness and elasticity to the skin. As early as age 30, our bodies may no longer be producing all the collagen we need to nourish our skin and keep it young and pliant. And while many of our foods do contain collagen, the older we get the harder it is to get all the collagen we need from dietary sources.

“Up until your twenties, your face is a reflection of God. After thirty, your face is a reflection of you.”
—Coco Chanel

These statements have not been evaluated by the Food & Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
You’re getting older. But don’t rub it in.

Laugh lines, crow’s feet and brown spots are all signs of collagen deprivation. For decades, women have been trying to replace collagen by applying a topical lotion or cream. But this doesn’t work very well — for good reason.

On the surface, the problem appears to be the outer layer, but aging actually occurs in the dermis, or second layer of the skin, where collagen, elastin and moisture reside. When certain components are diminished, the skin becomes dehydrated. The porcelain cracks.

Toki works where creams and lotions cannot reach.

Let’s face it: cosmetic creams and lotions only skim the surface of your skin. Traveling through the bloodstream, Toki brings nourishment to cells deep down where no topical application can reach. Like water from an underground spring, the nutrients in Toki are absorbed into the dermis, and parched cells begin springing back to life as Toki nourishes and replenishes from within.

Toki powder mixes readily with water.
Toki was the subject of an eight-week-long clinical study of 32 women between the ages of 35 and 65. Each woman was evaluated every two weeks for improvement in the soft tissue of the eyes, sagging, puffiness, wrinkles and overall facial aging through a visual assessment scale, dermatological exams, and participant self-evaluations. Blood collagen levels were also tested during the first four weeks of the study.

The outcome of the clinical study proved successful on all levels of evaluation. The dermatological review found statistically significant improvements in the soft tissue of the eyes, sagging, puffiness, wrinkling and aging over the course of eight weeks. Participants’ self-evaluations reported significant improvements in their overall appearance. Blood collagen indicators showed participants’ mean levels increased by 84%.

“The diminished appearance of fine lines and wrinkles was impressive. I was even more impressed with the fading of discolored spots on the skin...”

—Irwin Kantor, M.D., Dermatology
In 45 days — a radiant new you!

Toki is easy and pleasant to use. Simply dissolve Toki powder in 8 ounces of water or your favorite hot or cold beverage, and enjoy. For best results, take Toki three times daily for the first 30 days, then twice daily thereafter.

You’ll feel and see the difference in as little as 45 days.

Frequently Asked Questions

Q. What is Toki®?
A. Toki is a drink powder that contains three essential nutrients: Active Collagen, AdvaCAL® Calcium, and mucopolysaccharide complex. Because it is taken internally, Toki can deliver these nutrients to the dermis (second) layer of the skin via the body's blood supply, to diminish fine lines and wrinkles, reduce the appearance of patchy skin discolorations, and give your skin healthy radiance and tone.

Q. Are Toki’s benefits limited to the skin of the face?
A. Not at all! Because Toki works internally, it’s good for your whole body, not just your face.

Q. Is Toki safe?
A. Toki contains nutrients you should take every day like calcium and vitamin C.
A clinical study suggests Toki showed no adverse side effects.

Q. I’m taking medication. Can I also take Toki?
A. Your doctor is the only one who can answer that question.

Q. Will Toki make me gain weight?
A. No. Toki collagen is a protein, not a fat, and is sugar free. In fact, 55% of study participants actually lost 2 pounds or more while taking Toki.

Q. Can I take Toki if I am pregnant or nursing?
A. Nursing mothers and those who are pregnant should always check with their physicians before taking any dietary supplement, including Toki.

Q. Is there a limit to how long I can take Toki?
A. No. You can take Toki for as long as you wish to enjoy youthful, radiant skin.

Q. Who is LaneLabs?
A. LaneLabs-USA, Inc. — the company behind Toki — is one of the nutraceutical industry’s foremost manufacturers of proprietary, research-based natural products. LaneLabs has dedicated more than $1 million to researching the impact of these compounds on human health since 1995, and further studies are underway.
A difference you can see...

Crow’s feet diminish...

AB, age 65 - Baseline

AB, age 65 - After 4 weeks

Dark spots fade...

LM, age 57 - Baseline

LM, age 57 - After 8 weeks

...and everyone will notice

“My face looks firmer and appears younger.”
— AS
